The principal activities of the subsidiaries are engaged in the management of family takaful, including investment-linked business, underwriting of all classes of general insurance business, investment holding and managing private retirement scheme and asset management business.

There have been no significant changes in these activities during the financial period.

The Company is a public limited liability company, incorporated on 4 October 2007 under the Companies Act 2016 and the Financial Services Act, 2013 ("FSA") and domiciled in Malaysia. The registered office and principal place of business of the Company are located at Level 29, Menara AIA, 99 Jalan Ampang, 50450 Kuala Lumpur and Menara AIA, 99 Jalan Ampang, 50450 Kuala Lumpur respectively.

The immediate holding company of the Company is Orange Policy Sdn. Bhd. ("OPSB"), whose ultimate holding company is AIA Group Limited, a company incorporated in Hong Kong and listed on the Stock Exchange of Hong Kong Limited.

The interim financial statements are authorised for issue by the Board of Directors on 19 August 2020.

2 Basis of preparation

The condensed interim financial statements of the Group and the Company are prepared in accordance with the Malaysian Financial Reporting Standards ("MFRS") 134 Interim Financial Reporting.

The Group and the Company have adopted the MFRS framework issued by the Malaysian Accounting Standards Board ("MASB") and Revised Guidelines on Financial Reporting for Insurers issued by Bank Negara Malaysia ("BNM").

The condensed interim financial statements do not include all the information and disclosures required in the annual financial statements, and should be read in conjunction with the Group's consolidated audited financial statements for the financial year ended 31 December 2019.

3 SIGNIFICANT ACCOUNTING POLICIES

The accounting policies and presentation adopted by the Group and the Company for the condensed interim financial statements are consistent with those adopted by the Group's consolidated audited financial statements for the financial year ended 31 December 2019, except for the adoption of the following:

AIA BHD. (Incorporated in Malaysia)

NOTES TO THE UNAUDITED CONDENSED FINANCIAL STATEMENTS FOR THE 6 MONTHS PERIOD ENDED 30 JUNE 2020 (CONTINUED)

3 SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Changes in accounting policies and effects arising from adoption of revised MFRS

3.1 Standards, amendments to published standards and interpretations to existing standards that are effective and relevant to the Group's financial period beginning on or after 1 January 2020

The following accounting standards, amendments and interpretations have been adopted for the first time for the financial period beginning on 1 January 2020.

- Amendments to MFRS 3 "Definition of a Business"
- Amendments to MFRS 9, 139 & 7 "Interest Rate Benchmark Reform"
- · Amendments to MFRS 16 "Covid-19-Related Rent Concessions"
- · Amendments to MFRS 101 and MFRS 108 "Definition of Material"
- The Conceptual Framework for Financial Reporting (Revised 2018)

The adoption of the above accounting standards, amendments and interpretations does not have any significant financial impact on the financial statements.

3.2 Standards, amendments to published standards and interpretations to existing standards that are relevant to the Group but not yet effective and have not been early adopted

The Group will apply the new standards, amendments to standards and interpretations in the following period:

Financial year beginning on/after 1 January 2023

• MFRS 17 "Insurance Contracts" replaces MFRS 4 "Insurance Contracts" and the related interpretations.

MFRS 17 "Insurance Contracts" replaces MFRS 4 "Insurance Contracts" applies to insurance contracts issued, to all reinsurance contracts and to investment contracts with discretionary participating features if an entity also issues insurance contracts. For fixed-fee service contracts whose primary purpose is the provision of services, an entity has an accounting policy choice to account for them in accordance with either MFRS 17 or MFRS 15 "Revenue".

An entity is allowed to account financial guarantee contracts in accordance with MFRS 17 if the entity has asserted explicitly that it regarded them as insurance contracts. Insurance contracts, (other than reinsurance) where the entity is the policyholder are not within the scope of MFRS 17. Embedded derivatives and distinct investment and service components should be unbundled and accounted for separately in accordance with the related MFRSs. Voluntary unbundling of other components is prohibited.

MFRS 17 requires a current measurement model where estimates are remeasured at each reporting period. The measurement is based on the building blocks of discounted, probability-weighted cash flows, a risk adjustment and a contractual service margin ("CSM") representing the unearned profit of the contract. An entity has a policy choice to recognise the impact of changes in discount rates and other assumptions that are related to financial risks either in profit or loss or in other comprehensive income.

AIA BHD.

(Incorporated in Malaysia)

NOTES TO THE UNAUDITED CONDENSED FINANCIAL STATEMENTS FOR THE 6 MONTHS PERIOD ENDED 30 JUNE 2020 (CONTINUED)

3 SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Changes in accounting policies and effects arising from adoption of revised MFRS (continued)

3.2 Standards, amendments to published standards and interpretations to existing standards that are relevant to the Group but not yet effective and have not been early adopted (continued)

Financial year beginning on/after 1 January 2023 (continued)

MFRS 17 "Insurance Contracts" replaces MFRS 4 "Insurance Contracts" and the related interpretations. (continued)

Alternative measurement models are provided for the different insurance coverages:

- a) Simplified premium allocation approach if the insurance coverage period is a year or less; and
- b) Variable fee approach should be applied for insurance contracts that specify a link between payments to the policyholders and the returns on the underlying items.

The requirements of MFRS 17 align the presentation of revenue with other industries. Revenue is allocated to the periods in proportion to the value of the expected coverage and other services that the insurer provides in the period, and claims are presented when incurred. Investment components are excluded from revenue and claims.

Insurers are required to disclose information about amounts, judgements and risks arising from insurance contracts.

The Group is in the midst of conducting a detailed assessment of the new standard. On 17 August 2020, the Malaysian Accounting Standards Board ("MASB") issued the Amendments to MFRS 17 and the Amendments to MFRS 4 that defers the effective date of MFRS 17 and the temporary exemption from applying MFRS 9 to annual reporting periods beginning on or after 1 January 2023.

· Amendments to MFRS 101 'Classification of liabilities as current or non-current'

Amendments to MFRS 101 'Classification of liabilities as current or non-current' clarify that a liability is classified as non-current if an entity has a substantive right at the end of the reporting period to defer settlement for at least 12 months after the reporting period.

A liability is classified as current if a condition is breached at or before the reporting date and a waiver is obtained after the reporting date. A loan is classified as non-current if a covenant is breached after the reporting date.

The amendments shall be applied retrospectively.

Fair value hierarchy for financial and non-financial instruments

A level is assigned to each fair value measurement based on the significance of the input to the fair value measurement in its entirety. The three-level hierarchy is defined as per Note 16 to the condensed financial statements.

13 CONTROLLED STRUCTURED ENTITIES

The Company has determined that its investment in wholesale unit trust funds amounting to RM490,000,000 as disclosed in Note 11 to the financial statements as investment in structured entities ("investee funds"). The Company invests in a investee fund whose objective is to achieve medium to long-term returns while preserving capital and whose investment strategy does not include the use of leverage. The investee fund is managed by Affin Hwang Asset Management Berhad and applies various investment strategies to accomplish the investment objectives. The investee fund finances its operations through the creation of investee fund units which entitles the holder to variable returns and available for sale value in the investee fund's net assets.

The Company holds 68.9% of the Affin Hwang Income Fund 4, a fund established in Malaysia, and thus has control over the investee fund. The remaining investment of 31.1% is by virtue of the shareholding through the Company's wholly-owned subsidiary company, AIA General Berhad. The Company is exposed to, or has rights to variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity.

The investee fund is classified as available-for-sale investment and the change in fair value of the investee fund is included in the statement of financial position in the Company's financial statements.

AIA BHD.

(Incorporated in Malaysia)

NOTES TO THE UNAUDITED CONDENSED FINANCIAL STATEMENTS FOR THE 6 MONTHS PERIOD ENDED 30 JUNE 2020 (CONTINUED)

13 CONTROLLED STRUCTURED ENTITIES (CONTINUED)

The Company's exposure to investments in the investee fund is disclosed below.

	2020
Number of wholesale unit trust funds	1
Average net asset value per unit of wholesale unit trust funds:	
Affin Hwang Income Fund 4 (RM)	1.0255
Fair value of underlying net assets:	RM'000
Malaysian Government Securities	476,026
Unquoted corporate debt securities	13,324
Cash and cash equivalents	9,148
<u> </u>	498,498
Total fair value gain for the financial period	8,498

The Company's maximum exposure to loss from its interests in the investee fund is equal to the fair value of its investment in the investee fund.

As the Company has control over the investee fund which is considered a controlled structured entity, the structured entity is consolidated at the Group level. The underlying assets of the structured entity are duly consolidated in the financial statements.

NOTES TO THE UNAUDITED CONDENSED FINANCIAL STATEMENTS FOR THE 6 MONTHS PERIOD ENDED 30 JUNE 2020 (CONTINUED)

16 FAIR VALUE MEASUREMENTS

Fair value measurements on a recurring basis

The Group measures at fair value for financial instruments classified at fair value through profit or loss, available for sale and investments in non-consolidated investment funds on a recurring basis. The fair value of a financial instrument is the amount that would be received on sale of an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

The degree of judgement used in measuring the fair value of financial instruments generally correlates with the level of pricing observability. Financial instruments with quoted prices in active markets generally have more pricing observability and less judgement is used in measuring fair value. Conversely, financial instruments traded in other than active markets or that do not have quoted prices have less observability and are measured at fair value using valuation models or other pricing techniques that require more judgement. An active market is one in which transactions for the asset or liability being valued occur with sufficient frequency and volume to provide pricing information on an ongoing basis.

An other than active market is one in which there are few transactions, the prices are not current, price quotations vary substantially either over time or among market makers, or in which little information is released publicly for the asset or liability being valued. Pricing observability is affected by a number of factors, including the type of financial instrument, whether the financial instrument is new to the market and not yet established, the characteristics specific to the transaction and general market conditions.

The Group does not have assets or liabilities measured at fair value on a non-recurring basis during the period ended 30 June 2020.

The following methods and assumptions were used by the Group to estimate the fair value of financial instruments:

Level 1 - Financial instruments measured in whole or in part by reference to published quotes in an active market. A financial instrument is regarded as quoted in an active market if quoted prices are readily and regularly available from an exchange, secondary market via dealer and broker, pricing service or regulatory agency and those prices represent actual and regularly occurring market transactions on an arm's length basis.

Level 2 - Financial instruments measured using a valuation technique based on assumptions that are supported by prices from observable current market transactions for which pricing is obtained via pricing services but where prices have not been determined in an active market, instruments with fair values based on broker quotes, investment in unit and property trusts with fair values obtained via fund managers and instruments that are valued using the Group's own models whereby the majority of assumptions are market observable.

AIA BHD. (Incorporated in Malaysia)

NOTES TO THE UNAUDITED CONDENSED FINANCIAL STATEMENTS FOR THE 6 MONTHS PERIOD ENDED 30 JUNE 2020 (CONTINUED)

16 FAIR VALUE MEASUREMENTS (CONTINUED)

Fair value measurements on a recurring basis (continued)

Level 3 - Financial instruments measured in whole or in part using a valuation technique based on assumptions that are neither supported by prices from observable current market transactions in the same instrument nor are they based on available market data. The main asset class in this category is unquoted equity securities. Valuation techniques are used to the extent that observable inputs are not available, thereby allowing for situations in which there is little, if any, market activity for the instrument at the measurement date. However, the fair value measurement objective remains the same, that is, an exit price at the measurement date from the perspective of a market participant that holds the asset or owes the liability. Therefore, unobservable inputs reflect the Group's own assumptions about the assumptions that market participants would use in pricing the instrument (including assumptions about risk). These inputs are developed based on the best information available, which might include the Group's own data.

The Group's policy is to recognise transfers of assets and liabilities between Level 1 and Level 2 at their fair values as at the end of each reporting period, consistent with the date of the determination of fair value. Assets are transferred out of Level 1 when they are no longer transacted with sufficient frequency and volume in an active market. During the period ended 30 June 2020, there is no transfer of assets measured at fair value from Level 1 to Level 2. Conversely, assets are transferred from Level 2 to Level 1 when transaction volume and frequency are indicative of an active market. There is no transfer of assets from Level 2 to Level 1 during the period ended 30 June 2020.

The Group's Level 2 financial instruments include debt securities and deposits with licensed bank. The fair values of Level 2 financial instruments are estimated using values obtained from private pricing services and brokers corroborated with internal review as necessary. When the quotes from third-party pricing services and brokers are not available, internal valuation techniques and observable inputs will be used to derive the fair value for the financial instruments.

Significant unobservable inputs for level 3 fair value measurements

The following table shows the valuation techniques used in determination of fair values within level 3, as well as the significant unobservable inputs used in the valuation models:

<u>Description</u>	Valuation techniques	Valuation unobservable inputs
Private equity funds	Net asset value	Net asset value
Common and preferred shares	Cost	Cost
of private companies Investment properties and	Cosi	Expected market rental growth,
properties held for own use	Discounted cash flows	discount rate and yield

16 FAIR VALUE MEASUREMENTS (CONTINUED)

Fair value measurements on a recurring basis (continued)

Valuation processes

The Group has the valuation policies, procedures and analyses in place to govern the valuation of financial assets required for financial reporting purposes, including level 3 fair values. In determining the fair values of financial assets, the Group in general uses third party pricing providers and, only in rare cases when no third-party prices exist, will use prices derived from internal models. Chief Investment Officers of the Group are required to review the reasonableness of the prices used and report price exceptions, if any. The Group's investment team analyses reported price exceptions and reviews price challenge responses from third party pricing providers and provides the final recommendation on the appropriate price to be used. Any changes in valuation policies are reviewed and approved by the Group Pricing Committee ("GPC") which is part of the Group's wider financial risk governance processes. Changes in level 2 and 3 fair values are analysed at each reporting date.

A significant increase/(decrease) in any of the unobservable input may result in a significantly lower/(higher) fair value measurement. The Group has subscriptions to private pricing services for gathering such information. If the information from private pricing services is not available, the Group uses the proxy pricing method based on internally-developed valuation inputs.

21 BASIC EARNINGS PER SHARE

Basic earnings per share is calculated by dividing the profit for the financial period attributable to ordinary equity holders of the Group by the weighted average number of ordinary shares in issue during the financial period.

In the financial year ended 31 December 2019, the Company reduced its issued share capital from RM1,450,890,000 to RM810,000,000 by cancelling RM640,890,000 as confirmed in the Court order and consolidated every 4 ordinary shares into 1 ordinary share ("Share Consolidation"). The fractional entitlements of shares were disregarded. Upon completion of Share Consolidation, the number of issued and paid-up shares of the Company reduced from 767,438,174 to 191,859,543. The comparative basic earnings per share has been adjusted retrospectively based on current period's new number of shares.

24 INSURANCE/TAKAFUL FUNDS

The Group's principal activities are organised by funds and segregated into Shareholders, General, Life, Family Takaful and Investment-linked funds in accordance with the FSA.

The Group's statements of financial position and income statements analysed by Life/Family Takaful Fund, Shareholders' and General Funds have been presented together as one fund.

The life insurance business offers a wide range of participating and non-participating whole life, term assurance, endowment as well as investment-linked products.

The General insurance business offers general insurance products which include personal accident, motor, fire and other classes.

Individual fund's revenue, expense, assets and liabilities are those amounts resulting from the operating activities of the respective funds that are directly attributable to the respective funds and the relevant portion that can be allocated on a reasonable basis to the respective funds. Individual fund's revenue, expense, assets and liabilities are determined before inter-fund balances and inter-fund transactions are eliminated as part of the consolidation process.
