Market Review

The FBMKLCI ("Index") rose 1.14% Month-on-Month ("MoM") to close at 1,574.70 in February 2025. The Index outperformed the MSCI Asia ex Japan Index, which rose 1.07% MoM in Malaysian Ringgit ("MYR") terms over the same period. Foreign investors remained net sellers of Malaysian equities amounting to MYR2.2 billion during the month. Bursa Malaysia's average daily transaction value ("ADTV") fell 4.6% MoM to MYR2.5 billion in February 2025. During the month, Gamuda (+7.9%), RHB (+7.5%) and QL Resources (+6.1%) were the key gainers while key detractors were Petronas Chemicals (-20.0%), MR.DIY (-17.9%) and PPB Group (-10.2%). Sector wise, Plantation (+3.7%), Financials (+2.6%) and Construction (+1.9%) were the key performers, while Technology (-13.1%), Healthcare (-10.4%) and Energy (-8.3%) were the key detractors. Major news during the month included the Trump administration announcing plans for 25% tariffs on imports from Canada and Mexico, Deepseek's revelation that questioned the global hyperscalers' spending into training clusters and upending the Al trade, and the removal of Genting Malaysia & Inari from the MSCI Emerging Market Index.

Market Outlook

Moving into 2025, we are cautiously optimistic about the equity market, though volatility is expected in the near term due to uncertainties due to US President Trump's tariff policies which are expected to stoke inflationary pressure and hurt global growth. We expect performance divergence between developed and emerging markets, including currencies, with a positive outlook for the US market due to pro-domestic growth policies. In Asia, geopolitical tensions and a strong US dollar may weigh on Asian equities. China is focusing on fiscal stimulus to support domestic growth and stabilize property markets, though structural challenges remain. In Malaysia, while our optimism on equities has moderated, we remain positive due to strong corporate earnings, government initiatives, and rising foreign direct investment. The successful implementation of key initiatives, such as the National Energy Transformation Roadmap ("NETR"), Malaysia My Second Home ("MM2H"), and infrastructure projects, will be crucial. We opine that investment in data centres in Malaysia will slow but not contract despite the implementation of the US Artificial Intelligence Diffusion Policy and the disruption caused by the discovery of DeepSeek by the Chinese.

Lipper Leader Fund for:

- 1. Consistent Return
- Preservation

Lipper uses a ranking system of 1 to 5. A ranking of 5 means the fund is in the top 20% of funds in that category while a ranking of 1 means the fund is in the bottom 20%. Source : www.lipperleaders.com
