Market Review

The FBMKLCI ("Index") gained 1.8% Month-on-Month ("MoM") to close at 1,540 pts in April 2025. The Index outperformed the MSCI Asia ex Japan Index, which fell 2.2% MoM in Malaysian ringgit ("MYR") terms over the same period. Foreign investors remained net sellers of Malaysian equities with net sell flows eased by 59% MoM to MYR1.9 billion while local institutions remained net buyers amounting to MYR2.2 billion during the month. Bursa Malaysia's average daily transaction value ("ADTV") declined by 17.5% MoM to MYR2.7 billion in April 2025. During the month, MRDIY Group (+19.5%), Axiata Group (+17.3%) and Nestle Berhad (+17.1%) were the key gainers while key detractors were Sime Darby Berhad (-5.8%), Kuala Lumpur Kepong (-5.2%) and YTL Corp (-4.0%). Sector wise, Telecom (+4.9%) and Consumer (+4.2%) were the key performers, while Energy (-9.2%), Transport (-5.3%) and Technology (-4.7%) were the key detractors. Major news during the month included the US "Liberation Day" on 2nd April 2025 with a minimum 10% tariffs imposed on all its trading countries. China retaliated against the US tariffs with its own reciprocal tariffs on US goods. On 11th April 2025, US and China imposed higher reciprocal tariffs of 145%/125% on respective countries. Malaysia's March 2025 Consumer Price Index ("CPI") data came out and rose 1.4% Year-on-Year ("YoY"), marking the slowest inflation rate since February 2021.

Market Outlook

We are cautiously optimistic on equities, as recent developments in the US-China trade talks have helped avert a worst-case scenario and reduced the likelihood of a US recession. These developments have also helped stabilize the trend of negative earnings revisions. Nonetheless, some risks persist. The US-China negotiations remain fragile, and any unexpected setback could quickly escalate tensions. Furthermore, the ongoing effects of trade tariffs are already weighing on corporate sentiment, leading to capital expenditure cut and a more subdued business outlook. Additionally, Trump tariff is expected to stoke inflation, which could limit macroeconomic policy flexibility. We continue to adjust the portfolio proactively to manage risks and capture opportunities as they arise.
