

# COVERAGE FOR MUMS AND NEWBORNS

AIA has launched two first-in-market insurance solutions, A-Life Lady360 and A-Life Joy, targeted at mothers and newborns.

A-Life Lady360 allows women to secure coverage for themselves and their baby as soon as they confirm their pregnancy without the need to go through medical underwriting.

Meanwhile, A-Life Joy gives parents the option to extend their child's coverage to include autism and Attention Deficit Hyperactivity Disorder.

These plans are also available as syariah-compliant takaful solutions — A-Life Lady360-i and A-Life Joy-i — which provide the same coverage as the conventional plans.
