2. How different is the new My AIA app from the previous app version which I have been using?

- The previous My AIA app was only available for AIA Corporate Members. We have now upgraded the My AIA app for the benefits of our individual customers.
- AIA Vitality members can also now access their AIA Vitality account via this app.

3. Who can use the My AIA app?

- You can register and use this app as long as you are the policy/certificate owner, insured, covered member or payor of an individual policy/certificate, have an active employee benefit plan or mortgage account with AIA Bhd., AIA PUBLIC Takaful Bhd. and/or AIA General Berhad (collectively known as AIA Malaysia).
- AIA Vitality members can also access their AIA Vitality account via this app.

4. What is the difference between My AIA app and My AIA website?

- Both our platforms are designed to offer a unified customer experience. Customers can now access their profiles, insurance/takaful plans details, make payment transactions and service requests either in My AIA website or app.
- However, AIA Vitality members can only access their AIA Vitality account via My AIA app.
- The policy/certificate owner, insured, covered member or payor of an individual policy/certificate can also register and login to both My AIA app and My AIA website.

5. I am currently using My AIA website to access all my policy/certificate information. Do I still need to download this My AIA app?
